DEVELOPER EXPERIENCE

Foodsharing IT: Website Contributions

Foodsharing is a community-driven platform that reduces food waste. I contribute to the website's reliability and real-time notifications

- Maintained PHP (backend) and Vue.js (frontend), fixing bugs and refactoring legacy code for better maintainability
- Upgraded the push notification flow end-to-end (Vue.js → Service Worker → backend), adding robust error handling to prevent silent failures.
- Simplified and cleaned [serviceWorker.js](#), improving subscription lifecycle and UI feedback.
- Resolved browser-specific issues (e.g., Chrome) and verified backend subscription storage, payload formats, and delivery.
- Collaborated using GitLab (feature branches, merge requests) and developed in WSL (Ubuntu) to mirror production; documented fixes, improvements, and tests.

myFlix: A Movie Discovery App

myFlix is a full-stack movie discovery app that allows users to explore movies, manage their favorites, and personalize their profiles.

- Developed a RESTful API with JWT authentication and MongoDB for secure data management.
- Built a React-based frontend with React Bootstrap.
- Deployed the backend on Render and the frontend on Netlify for reliable accessibility and performance.

Co-Nekt: A React Native Mobile Chat App

Co-Nekt is a cross-platform mobile messaging app that enables users to send texts, images, and share their location in real time, with offline support and customizable UI options.

- Built with React Native and Expo to ensure smooth performance on both Android and iOS devices.
- Implemented Firebase Firestore for real-time message storage and Firebase Authentication for anonymous user login.
- Integrated Firebase Cloud Storage for handling image uploads and display.
- Designed the chat interface using the Gifted Chat library for a polished, accessible user experience.

PROFESSIONAL EXPERIENCE

H. Vogemann Gmbh / Chartering Manager

October 2019 - July 2024, Hamburg, Germany

Currently on Parental leave

Prime Maritime / Chartering Manager

December 2017 - September 2019, Piraeus, Greece

- Provided extensive market information on ships and cargo to customers, shipowners, and cargo owners.
- Negotiated various types of contracts to maximize results for my clients.
- Managed all stages of contract negotiations, including presenting opportunities, negotiating key terms, and handling post-fixture requirements.
- Performed accurate cost/benefit analysis.
